

UFO Disclosure

Commentary for June 15, 2023 — What Is Going On In The World?

A good friend sent me an article authored by a writer who is new to me. J.D. Rucker is a contributor to an online publication *America First Report*.¹

[Title] "[The UFO Coverup "Bombshell" Is Conveniently Timed, and That Should Worry You.](#)"

Don't think I'm crazy for thinking most other people are crazy when it comes to UFOs.

[by] J.D. Rucker, June 7, 2023

A U.S. intelligence community whistleblower claims UFOs have crashed, our government has them, and they have clear evidence they are not of human origin. Here's the story to watch in your spare time.

Reactions have been as expected. Some are saying, "See, I knew it!" Many are yawning, claiming they didn't need a whistleblower to tell them what they already knew. Most are unaware because corporate media is conspicuously ignoring the story.

There's a take that I've seen some conservative and alternative journalists mention on social media the past day or so regarding the story. They're saying it's a conveniently timed bombshell to distract the masses from other pressing issues.

Then, there's Tucker Carlson's take. The short version is that this should be the biggest story talked about by corporate media but they're not allowed to because it's all a big secret.

I can see either theory being true. Is the Deep State keeping it all secret because they simply don't want us to know? Are they playing 4D chess and leaking the story at just the right moment?

My theory may be the weirdest of them all.

You see, I don't believe in extraterrestrial life, at least not the way most think of it. I believe a combination of men, demons, and Nephilim working on behalf of the Powers and Principalities from Ephesians 6:12 are behind the entire UFO phenomenon. [Bold for emphasis, DWS]

It's not just my Biblical worldview that drives this perspective. Scientists have gone on record saying it is more likely that UFOs and those piloting them are not from another planet but from another dimension. Inter-dimensional travel, by their reckoning, is more plausible. I'm not a scientist so I'm not going to even attempt to explain their perspective,

¹ Mr. Rucker identifies himself as being: "**#Christian. Husband. Father. EIC - NOQ Report. Co-Founder - Freedom First Network. Editor - The Liberty Daily. Pro-Life. Pro-2A. Pro-Israel. #AmericaFirst.**"

but **I do know it jibes with the idea that these "aliens" are actually demonic in nature.** [I agree! Spirits can enter and act within our earthly physical realm. DWS]

If we are in the end times as many believe, then a worldview-shattering event may be on the horizon. The "announcement" of evidence or even contact with extraterrestrials would do the trick. I believe they've been setting us up for this announcement for decades and the time is drawing near.

I know, it's a crazy thought. I'm not dogmatic on the issue because it's far above my paygrade, but it's the theory that I prefer. You can say I'm overboard with my conspiracy theories, but there are simply too many holes in the other theories I've heard. And if you don't think the adversary is capable of pulling off a long con that spans decades, you don't know the adversary well enough. No matter what the truth is, neither the existence of an apparent coverup nor the timing of it all bodes well for us.

With all that said, here's an article by Michael Snyder from End of the American Dream that goes into more details about what's been happening ... [end J.D. Rucker's text. DWS]

Michael Snyder's article is also good, but I only link it here: "[There Is A Sophisticated Disinformation Campaign Targeting The U.S. Populace Which Is Extremely Unethical And Immoral.](#)" Remember, "disinformation" is a fancy term for "lying." Withholding information, in whole or in part is also a form of lying.² Governments around the world not only lie regularly to their people, it is their first thought when disclosing information from the public. See my article "[What Is Important.](#)" For conspiracies in the world see my article, "[Conspiracy in Scripture.](#)"

Regarding UFOs there are several articles on the ASK website:

1. Dr. Ernest Martin's short article: "[Are UFOs Real.](#)" Spirits can interact with the earthly physical realm as I show in my July 2020 article: "[Spirits Can Die.](#)"
2. My September 1, 2022 Commentary "[UFOs In The News And In Congress](#)" has background to articles examining the role of evil spiritual entities **(1)** opposing Christ's return, **(2)** killing Christians and Israelites, and then **(3)** killing much of humanity: "[The Magnitude of the End Time Crisis](#)" and "[Magnitude of the End Time Crisis, Part 2.](#)"
3. See my "[June 2021 Newsletter](#)" for an introduction to the June 2021 article "[UFOs in Antiquity.](#)" I reprint a 2007 article in *The Classical Journal* by NASA physicist Richard Stothers. His title was "[Unidentified flying objects in classical antiquity.](#)" I added web-links to Stothers' sources, and my commentary to his article. My June 1, 2021 Commentary "[Biblical Wonders In The Sky](#)" adds background information.

² God does not lie, but he withholds information for our good, and He will dispense it to every human being. All will eventually know the "full knowledge" of the truths of God (1 Timothy 2:4-6). Human governments withhold information and use disinformation as weapons against their own people.
